

## Information available from Sibbertoft Parish Council under the model publication scheme

This guidance/template gives examples of the kinds of information that we would expect Parish/Community Councils to provide in order to meet their commitments under the model publication scheme.

We would expect Parish/Community Councils to make the information in this definition document available unless:

- it does not hold the information;
- the information is exempt under one of the FOIA exemptions or Environmental Information Regulations exceptions, or its release is prohibited by another statute;
- the information is readily and publicly available from an external website; such information may have been provided by the public authority or on its behalf. The authority must provide a direct link to that information;
- the information is archived, out of date or otherwise inaccessible; or,
- it would be impractical or resource-intensive to prepare the material for routine release.

The guidance is not meant to give an exhaustive list of everything that should be covered by a publication scheme. The legal commitment is to the model publication scheme, and public authorities should look to provide as much information as possible on a routine basis.

### **Publishing datasets for re-use**

Public authorities must publish under their publication scheme any dataset they hold that has been requested, together with any updated versions, unless they are satisfied that it is not appropriate to do so. So far as reasonably practicable, they must publish it in an electronic form that is capable of re-use.

If the dataset or any part of it is a relevant copyright work and the public authority is the only owner, the public authority must make it available for re-use under the terms of a specified licence. Datasets in which the Crown owns the copyright or the database rights are not relevant copyright works.

The Datasets Code of Practice recommends that public authorities make datasets available for re-use under the [Open Government Licence](#).

The term 'dataset' is defined in section 11(5) of FOIA. The terms 'relevant copyright work' and 'specified licence' are defined in section 19(8) of FOIA. The ICO has published [guidance](#) on the dataset provisions in FOIA. This explains what is meant by "not appropriate" and "capable of re-use".

<p>Sibbertoft Parish Council is the primary tier of local government, charged with carrying out certain functions and responsibilities within the Parish. To that end, the Council has a number of powers and undertakes a wide variety of activities, from being responsible for the maintenance of street lighting and open spaces, installation and maintenance of play equipment, and mowing of parish verges. The Council consists of 7 Councillors. Elections are held every 4 years and candidates who wish to become Councillors are elected by those entitled to vote at the time of an election. Any Councillor vacancy that arises during the 4-year period is filled either by means of a bye-election or, if no candidates for election come forward, by co-option. Councillors so elected or appointed serve for the duration of the 4-year term. The Council Officers are those of Chairman and Vice Chairman, positions that are filled by Councillors elected annually from amongst themselves. The Council employs a Clerk whose role is to both advise the Council on legal and administrative matters and to implement its policies and decisions. The Council also contracts with third party businesses for services such as village mowing.</p> <p>N.B. Councils should already be publishing as much information as possible about how they can be contacted.</p>	<p><a href="http://www.sibbertoft.org.co.uk/parish-council/">www.sibbertoft.org.co.uk/parish-council/</a></p>
